KNOX DECLARES TERMS ARE CRUEL TO THE GERMANS

Republican Senator Pleads Cause of Late Foe of Yankees.

SAYS TREATY CAN NOT BE ENFORCED WITHOUT STRIFE

Asserts U. S. Should Decline to Be a Party to Pact.

Washington, Aug. 29.—Declaring that the peace treaty cannot be enforced but will lay the foundation "for centuries of blood letting," Senator Charles McNair of Pennsylvania, a Republican member of the foreign relations committee and former secretary of state, told the senate today that the United States should decline to become a party to the settlement effected at Versailles and should negotiate a separate peace with Germany.

In its "hard and cruel terms," he asserted, the treaty imposed on Germany penalties which "violate international law and engender strife." He declared there was no reason why the United States should project itself into the dangers of such a situation. "The more I consider this treaty," said Mr. McNair, "the more I am convinced that the only safe way for us to deal with it is to decline to be a party to it at all."

"I think we should renounce in favor of Germany any and all claims for indemnity because of the war and see that she gets credit for what she rendered. We ought to renounce all participation or membership in commissions, committees, or boards otherwise provided for in the treaty in aid of its execution to which by its terms we are parties. We ought to accept decisions of German territory. We ought to declare a general policy to regard with concern any threat of disturbance of general world peace, but at the same time we should reserve the right of action either independently or in concert."

LOCAL SHOPMEN FAVOR STRIKE

Vote is Secret But Sentiment of Men Is Said to Favor Rejection of Compromise.

A meeting of the local shopmen to vote on the question of striking was held in the basement of the courthouse last night. The strike is a part of the nation-wide movement which may follow the refusal of President Wilson to grant a 17-cent increase in wages as asked.

The ballot taken last night was a secret one and was sent to the officials at Washington as had been requested. It is the second ballot taken by the men, the second vote growing out of the compromise offered by President Wilson of an increase of 4 cents on the hour. The vote last night was whether the men should accept the increase, pending the efforts of the government to lower the cost of living, or call a strike.

When J. P. Wolfe, of the local machinists' union, was asked concerning last night's meeting, he stated no one knew what the vote from Newark was, but when asked what the sentiment among the men seemed to be he replied "to strike."

While labor leaders at Washington seem prone to give the government 30 days to show if it is possible to reduce the cost of living, the matter of striking is up to the ballot men and the shopmen over the country.

If a strike follows it will tie up shipping over the entire country. Local freight shipments will be greatly affected. Should the strike be called a large number of Newark men will be included as a large number are employed in the B. & O. shops here.

RAIL STOCKS CLIMB ON NEW YORK MARKET

New York, Aug. 29.—The government's first stand against the striking railway employees in the west had an electrical effect on the stock market at the lively opening today. Southern Pacific was the feature rising nine points on first sale which consumed a block of 20,000 shares at 103 to 105. United States Steel recovered on its quarterly dividend of 1 1/4 percent and an additional fraction on its transaction of 3200 shares. Other strong stocks included Crucible Steel, Baldwin Locomotive and Mexican Petroleum.

Southern Pacific, which owed its advance chiefly to the victory over the government in the long protracted oil suit, reacted 2 points after its spirited recovery. Other stocks also reacted 1 to 2 points on profit taking but the undertone continued strong. There were a few weak features notably American Telephone which was again affected by rumors regarding its settlement with the government before the end of the first hour, partly as a result of another setback in sterling exchange.

TO ASK WILSON TO AVERT STRIKE

Steel Workers Charge Corporation Seeks to Force Issue Before President Can Act.

Washington, Aug. 29.—President Wilson is to be asked to take a hand in the controversy between the steelworkers and the United Steel Corporation in an effort to prevent a general strike.

This announcement was made today by the committee of the steelworkers who charged that the steel corporation was trying to force the issue before the president could have an opportunity to pass upon the merits of the controversy. In a telegram to the union of steelworkers at Gary, Ind., the committee said the workers were not to strike "under any circumstances" until the strike date had been set by the committee. The Gary union had telegraphed that the steelworkers were being "disfranchised" and discharged wholesale for the purpose of forcing a strike.

STRIKERS IN WEST WEAKEN; HINES' EDICT IS DRASTIC

Tells Rail Men to Resume Jobs or Place Will Be Filled.

PROSECUTION TO FOLLOW INTERFERENCE, HE SAYS

Further Developments Are Awaited With Keen Interest.

Los Angeles, Aug. 29.—The tie-up of all steam roads continued today in Los Angeles, although the railroad companies announced they were willing to give the strikers their old posts and the brotherhood heads were working to induce strikers to return. In San Francisco and other cities of the state, the strikers returned to work.

San Francisco, Aug. 29.—The strike of railway men in the extreme west and southwest from indications was tumbling today. Warned by Walker D. Hines, director general of railroads, that if they did not operate trains by 7 o'clock Saturday morning, the railroad administration would undertake to do so, sentiment among strikers swung toward a return to work in many instances.

San Francisco yardmen, after having been out about 36 hours, agreed to return to work at 8 o'clock today. Virtually normal conditions had been restored at San Jose, Tracy and Oakland. At Los Angeles the question of returning awaited approval of the meeting of union officers today and second meeting of the locals represented by these officers.

At San Bernardino, where members of the "big four" brotherhoods are out, the engineers were said to have expressed willingness to return to work, but were bound by an agreement that all four crafts would return together, while other crafts continued to oppose a return.

Meanwhile traffic continued virtually paralyzed from Albuquerque, N. M., and Luma, Ariz., west to Los Angeles, and for a considerable distance north and south of that point on all lines.

Washington, Aug. 29.—Although it was thought that the drastic action threatened by Director General Hines together with the supporting action taken at Los Angeles by the brotherhoods involved would hasten the return to normal conditions, developments today in the railroad strike situation in California and other western states were being awaited with keen interest. Reports showed some of the strikers were obeying orders of their international chiefs and were returning to work.

Mr. Hines in a statement addressed to "public officers, railroad officers and employees and citizens generally," said that he was appealing to the government to take action to stop the strike. He said that all striking employees who failed to return to work by 7 o'clock Saturday morning, would find their names filed and that anyone who interfered with or abused the use of railroad property, would be prosecuted for having committed an offense against the United States.

His action was considered the most drastic ever taken by a government in dealing with a labor situation. It followed an announcement by the chiefs of the four principal brotherhoods that unless the illegal strike was terminated the brotherhoods would assist the railroad administration in operating the lines affected.

"Hundreds of thousands of carloads were removed to Austria-Hungary alone," the message adds, "the absence of Rumanian delegates from the indemnities commission and American protests against clauses in the new armistice with Hungary seem at least strange, if not a deliberate effort to restore one fifth of what Hungary has stolen from us."

GOMPERTS TALKS OF U. S. LABOR UNREST

Washington, Aug. 29.—Labor unrest over the country was the subject of further conferences today between President Wilson and the members of the executive committee of the American Federation of Labor. MASSARELLI WINS CROIX DE GUERRE

Newark Man Who Enlists Early in War Carried Message Through Heavy Barrage.

Charles Massarelli, who until the summer of 1917 was a Newark resident, has returned to Newark after spending nearly two years in France. During the open season on Huns, Heines and Squireheads he enjoyed splendid sport.

Massarelli, in addition to doing his part in changing the minds of the Potsdam gang regarding its plans for a middle European empire and its Berlin to Baghdad scheme, won from the French government a citation for bravery under fire and the Croix de Guerre with palm, which is among the highest honors the French government bestows on the enlisted man.

The citation signed by a lieutenant colonel, chief of the personnel bureau at the French grand headquarters, says: "Mr. Massarelli carried messages from his battalion commander to the company commander, through a violent machine gun and artillery barrage before Blanc Mont on the Champagne front and by his gallantry and courage, was able to save units on his right and left."

Massarelli went to Pittsburgh in August, 1917, and enlisted in the army. He was assigned to Company A, Fourth machine gun battalion, Second division, which was sent to the front with five stars, his unit having been cited in general orders as having participated in five engagements, Chateau Thierry, Verdun, Soissons, St. Mihiel, and the Argonne-Meuse offensive as well as the Meuse-Argonne campaign.

Massarelli visited the recruiting station in the postoffice building today and visited with Philip J. Dubeer, officer in charge and was Dubeer's guest during the day.

FORMER NEWARK MAN BEATEN BY HIGHWAYMAN

Emmett Cosgrove, a former Newark man, was the victim of holdup men near his home in Cheyenne, Wyoming, Wednesday night. He was returning home at 10 o'clock when two men stepped out of the darkness, one flashing a gun and the other demanding him to hold up his hands. He carried a closed umbrella and as he raised his hands it blinded the gunman and Cosgrove grabbed at his hand and a tussle ensued, the other thug beating Cosgrove on the head with a piece of pipe.

His cries for help brought neighbors out and the men escaped in a machine without attempting to go through his pockets.

Cosgrove was carried to his home nearby in a semi-conscious condition and a doctor dressed his injuries which were six gashes in the head and a fracture of the skull and numerous bruises on the arm and shoulder. He was improved and his parents, Mr. and Mrs. M. J. Cosgrove, who have been with him for the past five weeks, expected to be able to leave for their home here in a few days.

WE also know that the men who manufacture them have made them as near perfect as a man-made article can be.

Uncle Sam's expert inspectors learned this during the war, as they did not find it necessary to reject a single tire. Thousands passed through their hands and every one was accepted. No other tire made, equalled this record. The tires we have in stock are exactly the same in every detail as those made for the Government and will give you the same good service.

THE HUB

J. G. PATTON AND CHAS. A. LEE HELP IN SHAFT CAMPAIGN

Chas. C. Metz, director of the Newark Trust company, who has been an enthusiastic W. S. S. salesman during the Victory shaft campaign, received a \$1000 pledge today from J. G. Patton, proprietor of Cafe L'Aiglon, Philadelphia. Mr. Patton said: "I have your card of August 20, and as a former resident of Licking county I am very glad to help you win the race for the Victory memorial. I am enclosing herewith a pledge for 200 War Savings Stamps and if you will kindly advise me how to remit for same, I will do so upon receipt of your reply. I am wondering if I am writing to the Charley Metz I used to know or his son? In any event, kindest regards from yours very truly, J. G. Patton."

Mr. Metz thanked Mr. Patton's letter and pledge over to the W. S. S. committee. The stamps were bought today and Mr. Patton has been requested to forward his check for \$838. He was told that the Chas. C. Metz is the same Charley Metz he knew in years gone by and that Mr. Metz is just as much interested in the growth and development of Newark as he was years ago when he was president of the old Board of Trade.

This morning's mail also brought a letter from Charles A. Lee of the H. D. Lee Mercantile company, Salina, Kas., enclosing a substantial check for W. S. S. Mr. Lee, who is the son of the late Wm. D. Lee of Newark, says: "I am getting very much interested in the success of Licking county in this shaft campaign as I read about it in The Advocate from day to day."

Former Newark people now living in Columbus, Cincinnati, Pittsburgh, Cleveland, Springfield, Ill., Bennington, Vt., Washington and New York have recently sent remittances to help win the shaft for Licking county.

The last day of the shaft contest is tomorrow—August 30. Licking county holds a slender lead. Warren and Morrow counties are crowding. Buy all of the W. S. S. you possibly can tomorrow and make Licking county a winner.

Postmaster Taylor wired from Helton this morning: "Have just sold three thousand dollars worth of War Savings Stamps this morning. Rush one thousand more stamps by this afternoon's mail." The Victory shaft race ends tomorrow—August 30.

COMMITTEE IN PARIS ASKS ABOUT SUPPLIES

Paris, Thursday, Aug. 28.—The destruction of material owned by the American expeditionary forces in France is receiving particular attention from the war expenditures investigation committee of congress which today inquired in the burning of \$1,000,000 worth of aviation stock at Colombey La Belle and the destruction of motor vehicles at Romarin, of which the French have complained officially. There seems to be a difference of appreciation between French and American officials as to the value of the material broken up at Romarin. The French placed a certain value on it as junk. The committee has obtained evidence indicating that the aviation stock burned at Colombey La Belle included material and machines of value. The committee will probably spend several days examining in detail the bulk sale to the French government of American goods, comprising \$135,000,000 worth of food and \$127,000,000 worth of clothing. Inquiry into the committee has disclosed some confusion in the powers of the liquidation commission, headed by Edward B. Parker of Houston, Tex., and the mission headed by C. W. Hare, director of sales. "The latter appears to have no authority to sell any part of expeditionary forces stocks in Europe."

HANOVER CHURCH TO HAVE HOME COMING

Next Sunday will be home-coming day at the Methodist church at Hanover. Former members and friends of the church have been invited to be present at the morning service. A basket dinner will be served in the basement of the church at noon. The men are scheming to outnumber the women at the Sunday school which convenes at 10 a.m. The morning hour of worship will be at 10:45 o'clock. In the afternoon there will be a general program of speaking interspersed with music, and special exercises by the young people and children. The hour for the afternoon program is 2 o'clock (central time). There will be no evening service. The fourth quarterly conference of the year will be held Thursday evening, 7:30. Dr. R. F. McElreath will conduct the business meeting. A delegate to the lay electoral conference is to be elected. Rev. J. Emory Walter is the pastor.

100 SOLDIERS HAVE DINNER WITH W. R. C.

One hundred men who have been in the service, were the honor guests at a dinner served by the Women's Relief Corps at the C. A. R. dining room in Memorial hall Thursday evening.

The tables were attractively arranged with garden flowers and the women of the organization served a chicken dinner of elaborate appointments was prepared for the men and a fine had a splendid reunion. The invitation was issued generally for men in the service to be guests and preparations were made for about two hundred, but only about one hundred took advantage of the invitation.

PITTSBURGH STRIKE ENDS.

Pittsburgh, Aug. 28.—Street car service was resumed here today for the first time in two weeks, when 3000 striking motormen and conductors of the Pittsburgh Railway company returned to work followed by a vote of the car men late yesterday to abandon the strike.

The men went back to work at the wage increase of 5 cents an hour, granted them by the national war labor board recently, against which they struck two weeks ago last midnight.

MAY BE HUN ESCAPE.

Mr. Vernon Aug. 28.—A man giving his name as Jacob Hunter was arrested here by Sheriff Mosholder and is being held until he can establish his identity. Suspicion is entertained that he is one of the German prisoners who escaped from Camp Sherman. He claims his home is in Connecticut.

ever, notably the Anglo-Saxon democracies, shows that the political salvation of a people depends not so much on the outward form of its constitution as on a habit of mind, and the national psychology of the people itself. The downfall of Germany was due much less to the existence of the Kaiser, and his personal absolute rule, than to the mental make-up of the German people, which gloried in the intoxication of the dream of "Weltmacht" for the beloved fatherland. Infatuated by this dream, the great mass of the German people lost their mental perspective and plunged blindly into a career of unbridled national ambition. And by the insatiable of its ambitions, its final undoing becomes as certain as the overthrow in ancient Greek tragedy, of a mortal, in the folly of his pride, had defied the Olympian gods.

Before she can win again the respect of the civilized nations of the world, Germany must change fundamentally, but the temper and psychology of her national mind. Such a change cannot be effected overnight. It is a question of years before it can be made a living reality. The world can only wait in the patient hope that the adoption of a new and liberal constitution will prove to be the first, and a most important, step in the spiritual and moral rebirth of Germany.

THE SENATE MUST ACT.
(Cleveland Plain Dealer.)
The United States senate should waste no time in approving the two amendments to the Lever act which were passed by the lower house last week. These amendments were urged by Attorney General Palmer to assist in the campaign against the high cost of living. One extends provisions of the act to include clothing, farm implements, fertilizers and additional necessities and providing punishment of \$5,000 fine or two years' imprisonment or both for those found guilty of profiteering.

Investigations and prosecutions to put an end to price extortion continue throughout the country, and the aspect of the situation has been much improved since the national government took a hand. But until legislation is provided as requested by the attorney general efforts to solve the high cost of living problem will be handicapped and the needed results delayed.

The original food control act fixes severe punishment for those guilty of hoarding. And that this provision has been beneficial to the department of justice in its war on high prices is evidenced by the progress made in pulling large supplies of necessities out of storage and throwing them on the market for public use. But the amendments to extend the act to cover other articles, particularly clothing, and to penalize profiteering by small wholesalers and retailers as well as large wholesalers, have a much more far-reaching effect.

It is, therefore, important to the public welfare that the senate take the necessary action immediately to finish the job so that the amendment may function at once. Public sentiment is strongly in favor of giving the government all the power that is necessary to bring price gouging to a speedy end and there is no tangible reason why the efficacy of the nation wide campaign should be retarded by inaction of the upper house.

Diamond Inner Tubes

Are as Reliable as the Main-spring in Your Watch

When you bought your watch you took the mainspring for granted. Of course it works. It ought to be good for a year or two years. Maybe more. So long as it functions you forget it.

You ought to be able to forget the tubes in your automobile casings in just the same way.

Of course, any tube will last for a few months, but the tube that goes—and goes—and goes—year in, year out—the tube that outwears three or four casings—sometimes even your car itself—THERE'S THE TUBE THAT IS A REAL SATISFACTION.

We know THE DIAMOND TUBE IS DELIVERING THE GOODS in unexampled fashion, and we would urge you to buy DIAMOND if it cost double its really moderate price.

THE SELECTION OF TEACHERS.

Some School boards have had a job this year to fill their class rooms with competent and successful teachers. The pay has been so inadequate that well trained young women are hard to find. men, save in some of the higher ranks, have almost deserted the profession. Advances in teaching salaries are now being made all over the country, but it will be some years before properly qualified candidates will be as numerous as formerly. Many girls are getting positions who never even went through a high school.

Of course it takes more than education to make a real teacher. Some poorly educated girls still have the power of leadership. They have the gift of magnetism, the faculty of doing things in an interesting way, of stirring up children's ambition. When a girl has that qualification, defects in education can be overlooked.

Finding a teacher with a real gift of inspiration means that the lives of the children under her are going to be transformed. Dull pupils will wake up and begin to fit themselves for real success in life. Those more gifted will be persuaded to aim high and accomplish great things.

On the other hand, a common-place teacher means a droning, disorderly, and languid school, where the only idea is to dream through the study hours until playtime comes. Children form life long habits of indolence in such a school.

School authorities should investigate records of applicants carefully, so as to make sure that all will make good. Better spend some money or time in telephoning or travelling than secure misfits. Newark has a high standard of teaching ability and in these difficult times it is anxious to do better school work than ever before.

While no one wants any trouble with Mexico, the people down there have got to consider American citizens as something else than door mats.

A bicycle famine is reported, but the young folks will kindly agree to accept automobiles as a substitute.

Much used to be said about burning midnight oil, but some of the modern students burn more midnight gasoline.

GERMANY'S NEW CONSTITUTION.

(Boston Transcript.)
If the political and moral regeneration of a people depended on the nature of its written constitution, the world might welcome Germany today, after the adoption of its constitution, into the family of nations. The makers of Germany's new constitution have, in the face of recent world-wide criticism, made an honest effort to give the German people a constitution which, in its general terms, is calculated to enable Germany peacefully to work out its destiny.

According to the preamble "The German people, united in all its branches and inspired by the will to renew and strengthen the empire in freedom and justice to further inner and outer peace and social advance, has voted this constitution." An analysis of its provisions shows two greatly to be desired improvements over the old reactionary and absolute government of Kaiserism. The first is the total annihilation of Prussia from its former complete hegemony over the German empire. The second is the proclamation of the principle of national government, the basis of all democratic governments, a sovereignty which is to be vested in the popularly elected Reichstag, representing the sovereign German people. The experience of other nations, how

TOUCH OF CLOTHES GAVE DAYTON MAN SEVERE SUFFERING

Operation for gall-stones and appendicitis left him in bad condition. Bowels were sore; stomach swollen very nervous.

Declares that Drecto has brought much relief by overcoming his troubles.

"A year ago I was operated on for appendicitis and gall-stones, and have suffered greatly ever since," states Mr. John E. Fay, of 51 Campbell St., Dayton, O., the popular lumber buyer for the International Goff Shaft Co.

"It was a rare exception for me to get any sleep, for the pains kept me awake night after night. My stomach was so sore and swollen. I could hardly bear for my clothes to touch me; at times I was so constipated that it seemed my bowels were locked. I was almost unfit for my work."

"Someone recommended Drecto to me, saying it had helped them, so I took a chance on a bottle. I now feel that fate guided me to buy Drecto, for I'm almost a well man today. All the soreness and pains in my stomach and bowels are gone; bowels are acting regularly; my appetite has returned for I eat three meals a day and enjoy them. I rise of mornings feeling full of energy and ambitious to get to work. I'm going out on a trip today, and it is the first time I've felt keen to go, in a long time. This is grand medicine, and has made a new man of me."

Drecto acts on the vital organs promptly, and in a pleasing fashion. It eases the stomach and assists it to digest the food properly. Gives strength to the kidneys; works the bile from the liver; overcomes constipation; banishes rheumatism, and tones up the entire system.

All good druggists now sell Drecto, and it is highly recommended in Newark by Evans' Cutrate Drug Store.

But Nerv-Worth Banished This and Other Distressing Ills From Mrs. Umstead's Life.

Mrs. Umstead was not content to profit by Nerv-Worth virtues and stop at that. To pass her good news along she made the following statement to Sidney's Nerv-Worth druggist and said he might print it:

"I, W. Pfeil—I have suffered with bad noises for the last six years. Noises sounded like a railroad train and sometimes like four different noises at one time."

Since taking Nerv-Worth these noises have left me and I sleep well now. My stomach and digestive organs are fine now and I feel better in every way—like a new person. I will be pleased to recommend Nerv-Worth to anyone and to tell anyone what Nerv-Worth did for me.

Must We Ratify Treaty To Save the World?

At the now famous White House conference with the Committee on Foreign Relations President Wilson emphasized the moral obligation resting upon the Senate to ratify the Peace Treaty as it stands.

THE LITERARY DIGEST of August 30th cites numerous leading newspapers which have taken up this question with ardor. "The first, the imperative duty of this country," says the Jersey City Journal, is to make the Treaty effective and then "to join the other civilized countries of the globe in an honest effort to make peace lasting," and the Philadelphia Inquirer maintains that America "can never return to a sane basis until the Peace Treaty is disposed of and actual peace is brought about." The opposition view is voiced by the Hartford Courant, which feels that while "benefit all round" should result from the conference the Senators will not be "stampeded by the President's plea for urgency." Senator Lodge hints at delays in his statement that "we all respect and share" the desires of those who want a Peace League, but "some of us see no hope, but rather defeat, for them in this murky covenant."

Express Regret At Departure of Soldiers Who Took Special Courses At Cambridge.

Cambridge, England Aug. 2.—(By Mail)—The departure of the American soldier students from Cambridge university is regretted. They are missed.

"Quite a gap has been left by the Americans," the correspondent was told by W. F. Reddaway, of Fitzwilliam Hall, censor of non-collegiate students, and the Rev. J. E. Whitney, professor of ecclesiastical history at Emmanuel College, which was John Harvard's, put in a quick corroboration. "Indeed they are," said he. "They were a cherry lot. We all liked them. They lent quite a bit of color."

The university authorities generally were impressed by the earnestness with which some of the Americans buckled down to work. All did not work hard, however, many taking the view that they would profit more by looking about in a leisurely fashion, studying English practices and manners and cultivating the social side of things, than they would by burying themselves in books and lecture rooms during their limited stay.

Cambridge is beginning to make a bid for American students who look to Europe as a field for postgraduate work. Formerly Americans had great difficulty in securing degrees of doctor of philosophy in British universities, so they went to Germany. Cambridge now has arranged a Ph. D. Sir Geoffrey said, that will have a special appeal to American researchers.

English post-graduate students, like the Americans, used to go to Germany. To offset a resumption of that practice, Cambridge is arranging to have its men go instead to universities in the United States.

POLYNESIA GREETSSOLDIER HEROES

Ancient Customs Revived When Veterans of the World War Are Given Two Weeks' Ovation.

Papeete, Tahiti, July 15.—(By Mail)—Age-old Polynesian customs of song and dance half forgotten by the natives in their swing toward European customs, were revived during the great festival which during the past few weeks welcomed home Tahitian veterans of the great war.

Maran, formerly queen, came from semi-retirement and gave a picturesque feast of royal proportions in the old king's palace. The otea, or dancing company, presenting evolutions not unlike the Hawaiian hula-hula, was seen again and the himene, said by musical experts to be unique in all the world, was sung. In the himene, lately abandoned for hymns and European songs taught by missionaries, short phrases of great originality and often of great beauty are woven together in four or five parts without dissonance. Some liken it to Wagnerian choruses.

One colorful feature of the celebration was the lantern parade when young and old, carrying torches, danced through the highways and byways of the towns. The square, lighted all about with paper lanterns while flower-crowned women promenaded with husbands or sweethearts, presented a romantic picture of old Tahiti.

When the battalion of Tahitian soldiers arrived they were greeted by great crowds of brilliantly attired natives crowding piers and beach. They marched through triumphal arches of palms and after being officially welcomed by Governor Jocelyn Robert were taken over by the crowds.

The festival continued more than two weeks. Other settlements of the island have made preparations for other celebrations to follow.

LODGE PIN SAVES LIFE OF PRISONER OF REBELS

Juarez, Mex., Aug. 7.—(By Mail)—A lodge pin and grip saved the life of a Chinese merchant of Parral when Francisco Villa's troops captured Parral some months ago, according to a sworn statement made by the merchant to the American consul here upon his arrival from the interior recently.

The Chinese merchant, refused to permit his name to be attached to the statement for fear he would be killed if he fell into Villa's hands. He swore that he saw three of his cousins dragged through the streets of Parral by rebels and burned at the stake.

A demand for \$5000 was made upon him upon threat of death, the merchant said. He told the Villa colonel he did not have this amount and was about to be ordered shot, he said, when he noticed a lodge pin on the lapel of the colonel's coat. The merchant said he belonged to the Chinese organization which was similar to the one which the officer belonged to and they exchanged the lodge pins. The ransom was reduced to \$2000 and he was finally permitted to go.

BELGIAN BUYERS GET CREDIT IN AMERICA

Brussels, July 29.—(By Mail)—Several American and English houses have arranged to give credits for three years to Belgian buyers, who, now that industries are beginning to work again, are in need of a great variety of raw material and many manufactured articles.

The minister of economics has prepared a report in which are listed the material wanted. These include materials for lining coal mine shafts, cables and machines used in coal mining, steel and galvanized wire, sulphuric acid, heavy tar oil and special coal for coke to be used in coke ovens, iron ore and tools for blast furnaces and rolling mills, bar for textile industries, sulphate of soda for glassworks, hides of a quality not found in Belgium for tanneries, pulp, spruce and Norway pine for paper mills.

The Young Man of the Hour

YOU know him---at least you've met him, and even if you haven't met him, you've heard of him, and you'll hear more of him.

HE'S the sort of fellow who has laid out his scheme of life and is following it through.

HE isn't the most popular fellow in town. Some of the boys even refer to him as Mr. Tight Wad. But those are the sort of fellows with whom he doesn't aim to be popular. Popularity is too expensive with that bunch--the price of that sort of popularity isn't worth the waste of time and money.

THE big men of the town --men who count--call him a promising young man rather than a popular one. He prefers to keep his promise to the "Big Fellows" rather than to establish his popularity with the "good fellows(?)"

HE'S not much of a "mingler." He's too busy working out his own ideas and ideals.

DURING the war he put his earnings into Liberty Bonds and a Savings Account here. He did his bit to make his country "a decent place to live" and now he is demonstrating what a glorious country this is in which to live decently.

HE has an idea that no country in the world has so wonderful a future as this one and he plans to make himself an important part of that future.

HE realizes that the war could never have been won without the resources of this country. He takes that as his example that the "battle of life" cannot be won without resources ready to combat emergencies and ready to meet opportunities.

HE means to be a Victor in "life's struggle." He means to have means. He's a saver---a national asset, not a public liability. Yes, he's a saver---a saver of money, a saver of vitality, a saver of self respect. He has faith in himself and in his country. He banks on the future. So he knows he must bank in the present.

HE knows that invention, education, philanthropy, comfort and convenience and health are not possible without wealth. He aspires to accumulate wealth, not for the mere joy of having, but for what it will do in making the world a better place for him and his fellowmen.

HE wants a home all his own, a happy family, an automobile, a position in society. He wants to have contented men working for him. He wants to contribute generously to charity, to art, to science and to civilization. He feels that it is his duty to himself and the world.

HE wants all these things when he can afford them, and not until then. He knows he never can afford them unless he saves, accumulates and invests.

HE'S patient, persevering, and practical. He saves what he can each week. He saves regularly. He watches it grow.

He will succeed. He cannot help it because he's a saver.

Women Should Eat Partola Candy

The delightful flavor of peppermint in Partola mints is as agreeable and tasty as in after-dinner mints. How much more gratifying it is to eat a laxative in such a delicious and appetizing form instead of taking strong cathartics, harsh purgatives and nauseating oils.

A mild, gentle yet thoroughly effective candy laxative such as Partola—“The Doctor in Candy Form”—meets exactly the requirements of women. It is easy to take, being eaten just like candy. It has the inviting appearance and delicious taste of candy mints.

The action of Partola Tablets leaves no unpleasant or weakening after-effects, yet it thoroughly cleans the bowels; puts new life into sluggish livers; purifies, sweetens and stimulates the stomach; and puts new vitality into the whole system.

Children like Partola Tablets because they are candy and have not the slightest taste of medicine. Grown-ups learn what real health is through their use. They should be in every home at all times. At all drug stores, 25c, 50c and \$1.00 boxes. Trial size, 10c.

SELF-INDICTMENT IS URGED UPON GERMANS

Berlin, July 24.—(By Mail)—Professor P. W. Foerster, Bavarian minister to Switzerland, recommends an "honest national self-indictment" for the Germans. Writing in the Tagblatt on the questions of war-guilt and the conduct of the war, he says:

"We must investigate our own part in this world brutalizing process quite as much as we should our opponents abroad. Not until then are we able to understand the Paris decision as the tragic result of our own national guilt. The ruthless cruelty with which we were treated we ourselves practiced in the occupied territory."

"Whoever has the slightest conception of the rigorous measures we adopted in the treatment of prisoners and the systematic destruction of industrial plants and the deportation of thousands of young girls will readily understand the resentment of the French people."

"We must be perfectly clear in our own minds in respect of our own guilt if we are to be born again, nationally. We must always remember that, while the whole world is practicing the politics of might, we on the other hand have systematized the politics of might and elevated it to a new political philosophy."

SAY GERMANS STEAL FRENCH GAS ENGINE

Paris, July 30.—(By Mail)—The gas turbine, which a large German company is reported to be manufacturing is, it is claimed here, a practical application by Germans of French discoveries. The principle of this turbine was worked out by French inventors but the trials and experiments were interrupted by the war.

Briefly, the engine consists of a spherical combustion chamber to which vaporized gasoline and air are admitted by separate pipes and exploded, as in the ordinary motor, by an electric spark. Another pipe conveys the jet of gas against the vanes of a turbine enclosed in a metal casing to which the propeller is directly attached. It is claimed that the turbine motor gives the same power as a piston motor on half the gasoline. The engine is said to be much lighter than the ordinary airplane engine and to make little noise.

SURVEY SHOWS FRANCE HAS GOOD WATER POWER

Paris, July 24.—(By Mail)—Nine million horse-power is the total capacity of the natural waterfalls of France, according to a complete census made by Monsieur Jules Ceis, under-secretary of public works. Of that total 750,000 horse-power was utilized before the war and about a half million has been put into operation since 1914. The chamber of deputies is now discussing a bill regulating the cession of water-power privileges which, it is hoped, will facilitate the utilization of the remaining seven and three-quarters million.

The advantage France may draw from full exploitation of this rich resource in power appears clearly when it is recalled that Germany has only 1,300,000 horse-power in hydraulic resources, that coal costs three times as much as it did before the war, and that the French water-power corresponds to a total annual coal consumption of seventy-eight million tons—eighteen million tons more than France consumed annually before the war.

France requires twenty million tons of coal yearly in excess of her own production at its maximum. At the present cost, the purchase of such a quantity means the payment abroad of a billion two hundred million francs annually, materially aggravating the situation of French exchange.

The programs of utilization of the unimproved water-power comprises the manufacture of nitrate fertilizers so much needed to increase agricultural production in France.

U. S. SHOE MFRS. WANT THE BRITISH BAN LIFTED

London, July 25.—(By Mail)—The American chamber of commerce in London is pressing the British board of trade for an increase in the ration of shoes from the United States, which now remains limited to 25 per cent of the 1913 imports.

The individual importers have telegraphed W. H. McKelwaie, president of the National Association of Boot and Shoe Manufacturers at Boston, urging that action be taken at Washington to obtain the removal of restrictions in England, which were operating against American shoe manufacturers. The American chamber in London has supported their stand.

It has been pointed out to the board of trade that while the boot and shoe concessions remains limited to 25 per cent of 1913, imports practically all the other major trades are enjoying at least a 50 per cent concession. Furthermore, it is asserted, the British manufacturer is unable to supply the domestic trade with anything like the quantity of shoes in demand. Because of this scarcity the consumer is being forced to pay a high price, which would be materially decreased by allowing increased imports.

THE MARKETS

Cleveland Produce.
Cleveland, Aug. 29.—Markets unchanged.

Wall Street.
New York, Aug. 29.—Stocks were strong at the active opening today, soon becoming buoyant on the announced termination of the federal government to break the railroad strike in the west. Interest centered in Southern Pacific, which opened with a sale of 20,000 shares at an extreme advance of 9 cents. Other rails were 1 to 5 points higher. Among steel, iron and industrial notably steel equipments, oils and motors, gains ranged from 2 to 5 points. Extensive short covering marked the first half hour's trading.

Southern Pacific forfeited little of its rise in the moderate reaction of the first hour. Oils which owed their strength to Southern Pacific's legal victory, made further substantial gains, especially Mexican and Pan American. Motors continued to harden and steel equipments were again advanced. A sharp advance in Crucible, Shaws, plings, coppers, leathers and American Woolen embraced the other stocks with rails, Texas Pacific featuring the latter a 5 point gain. Call money opened at 6 per cent.

Chicago Grain Review.
Chicago, Aug. 29.—Live hogs prices which continued to decline starting to rise 20 cents under yesterday's closing figure were again the controlling factor in the grain and provision market and their weakness was reflected in lower prices for cereals and meat products. Initial prices were: Sept. 1.74 1/4 to 1.75 3/4 and Dec. 1.36 1/2 to 1.37. Early offerings were quickly absorbed and prices rose. The rallies brought out buying offers and prices fell away from them to 1 cent to 3 cents lower than yesterday's closing point.

Oats moved in sympathy with corn and were offered to the same conditions, except the prices were 34 cents higher to half a cent over, the two deliveries showing strength. Increased offerings were followed by a sale in prices the drop being less pronounced than in corn but still current values well below the opening points. Sept. started at 68 1/8 and Dec. at 72 7/8 to 73 1/4.

Provisions started with a decline of 25 cents in pork and lard and 10 per cent off. The early trading resulted

IMPROVEMENTS BEING MADE AT BARGAIN SHOE STORE

Extensive improvements are now under way at the Newark Bargain Shoe store and when completed the store will be modern in every way. A new front is being installed and the interior of the room refinished and redecorated. It is the intention of the management to make this store one of the most attractive in the city and neither time nor money will be spared in gaining the desired results.
While the workmen are at present busy working on the new front this will not interfere with business as arrangements have been made whereby the attention can be given to patrons during the opening hours. In the display advertisements of the Bargain Shoe Store which appears elsewhere in this issue will be found many tempting shoe values for ladies, gentlemen, misses and boys. Unusual bargains in school shoes are offered and it will be advantageous to give your attention to the money saving opportunities offered by this store.

REGAN & CO. STORE UNDER NEW MANAGEMENT

The Regan & Company store, Warden Hotel block has been sold to business men of Marion, Ohio and will be conducted in the future under the name of the Style Shop.
They will carry a full and complete line of ladies suits, coats, dresses, skirts and waists and will maintain the same high standards that have characterized this store in the past.
The new management assumed charge of the store this week and will be pleased to have former patrons and the public to call and see them.
In their display advertisement in this issue will be found some attractive values for Saturday.

Telephone Service.

THE AUTOMATIC TELEPHONE IN THE HOME.

1. The automatic telephone is always ready for service.
2. It is possible to visit with friends without making a journey.
3. For love-making it is indispensable.
4. It puts the farm in touch with the city.
5. It is protection against fire and burglar.
6. It is as good as a doctor in the house.
7. For invalids and "shut-ins" it is a great boon.
8. Its operation is simple and effective.
9. It makes marketing possible at a minimum expenditure of energy.
10. It is an instrument by which troubles and vexations are met.
11. It works for small wages—5 cents a day.
12. It puts the ramifications of the telegraph in touch with the home.
13. It prevents worry, when outside accidents or delay prevent arrival at an expected time.
14. It saves steps.
15. It is an ever-ready, non-complaining errand boy.
16. It is a protection at night.

The foregoing are the principal reasons why people in Newark have telephones in their homes. Almost any one of them is sufficient reason in itself.

What would the women of Newark do without the telephone?
